Gentlemen:

Each time I pass the old Oxford School I find myself wishing it could be recycled for some good use. It has never been inside, but could it be made into a suitable Town Hall and Community Center? You certainly need more adequate quarters and the town needs a meeting hall.

Situated ideally for conducting town affairs — government, jobs, police, recreation (even the town Christmas tree) in one place I kept you well apprised the possibilities thoroughly before tearing down the building.

I believe it would have citizen support.

Sincerely
 Mrs. Jackson
